To The Underclassmen:

We the Freshmen Class of '62, after a four year journey on an unknown path, would like to leave the underclassmen with a little insight and more thorough understanding of your duties as a student.

The class motto 'Privilege and Responsibility' sums up the basis of high school life. Anything accomplished will be due to a spirit of group initiative coupled with personal responsibility.

In these four short years we, together with you and the Administration, have initiated many sports, clubs, and activities. However, a school must be in a constant state of evolution and improvement. It is the duty of each graduating class to leave contributions above and beyond their predecessors.

If a student fulfills his responsibility to the school, he is benefiting himself and most important, his fellow man.

Class of '66'
